

Protex® Ultra Lite

Ref: FKDYNG13/B/KW

Introducing the Protex® Ultra-Lite: probably the most competitive level 5 cut-resistant glove currently available.

The unique combination of the Protex® Ultra-Lite's properties make it ideal for use within the food, medical, and glass-handling industries. It does not lint, it is incredibly lightweight and it achieves the highest blade-cut resistance rating afforded by the EN388 standard.

Protex Ultra Lite glove (ref: FKDYNG13/B/KW)

Further Details

- Foodsafe: zero linting therefore no contamination from the glove.
