

SENTINEL

V2478

Introducing the latest addition to the BEATSAFE® range of slash-resistant uniform gloves.

The SENTINEL™ glove has a high quality water-resistant cape leather outer and a lightweight DYNEEMA® composite lining incorporating the very latest in fibre and yarn technology and offering a high level of cut-resistance (EN388 Level 5).

The lining is significantly softer and more comfortable than traditional lining materials and offers the "cool to the touch" sensation associated with DYNEEMA®, as well as easier donning and doffing.

The SENTINEL™ is sewn fully inseam for extra comfort, and features an elasticated wrist, for improved fit.

Meets the mechanical performance requirements of BS7971 Part 7: 2003

Available in sizes XXS - XXL.
