Aircrew Gloves

Bennett Safetywear Limited has nearly 70 years' of knowledge and experience in the art of crafting high quality, market-defining, leather safety gloves. The aircrew gloves introduced here are testament to this knowledge and experience.

CW01100 Aircrew Glove
No compromises have been made on this, our flagship flying glove. Full-pique sewn with side vent and elasticated wrist, the glove provides maximum dexterity, tactility, and comfort. Available in pearl, black (shown) and olive green. Sizes 7-11. Overall length 28cm. A shorter wrist version is also available (code: CW23).*

Made in UK
BS EN ISO 9001: 2000
NSNs:
Olive Green: 8415-99-130-3139/46
Pearl: 8415-99-135-1507/13

CW50 Aircrew Glove
*A half-pique** version of the CW01100 with inseam thumb, this glove is still built to a very high standard and provides excellent movement and comfort to the wearer. Available in pearl (shown), black and olive green. Sizes 7-11.*

Made in UK
BS EN ISO 9001: 2000
NSNs:
Olive Green: 8415-99-000-5745/48

CW02100 Military Flying Glove
Originally designed for Tornado pilots flying offshore duties, the full-pique, water-resistant CW02100 has sealed seams and a rubber wrist seal to prevent water ingress in the event of the pilot having to eject into the sea. Available in olive green (shown), pearl and black. Sizes 7-11.*

Made in UK
BS EN ISO 9001: 2000
NSNs:
Olive Green: 8415-99-136-9699/705

* Full Pique - Lapping one edge over the other, this seam demands considerable skill yet provides a neat, flexible and durable seam.
** Half Pique - The fingers are Pique sewn on the back of the glove, and inseam on the palm.

Bennett Safetywear Limited

European market leaders in the manufacture of PPE for Police, Military, Firefighting and Industrial applications.

V21423A Silk Liners

Worn underneath any of our flying gloves, these 100% pure silk liners keep a pilot's hands warm, even in extreme cold weather. Manufactured in the U.K, the liner is constructed with two layers of this fine silk, and with an additional two layers on the cuff for extra contained insulation. The superior thermal properties and wicking action of the silk ensures warmth, breathability, dryness, and soft, lightweight comfort.

- Colour: ecru
- Sizes: s, m, l, xl
- Made in U.K

CW03100 Winchman's Gloves

Designed primarily with helicopter search and rescue operations in mind, these winchman's gloves are made from extremely high quality hair-sheep leather and are reinforced across the thumb and palm with hard-wearing goatskin leather. Full pique for maximum comfort and tactility, these durable gloves are built to a very high standard.*

- Sold per hand
- Sizes: 7-11
- Made in U.K

NSNs:
8415-99-135-8810/15 (left hand 7½ - 10)
8415-99-135-8818/23 (right hand 7½ - 10)

* Full Pique - Lapping one edge over the other, this seam demands considerable skill yet provides a neat, flexible and durable seam.

THE LEATHER

All Bennett Safetywear Limited's aircrew gloves are made from a high quality hairsheep leather supplied by **Pittards**®. This unique leather is:

- **Perspiration-resistant** - prevents leather degradation usually caused by the salt in sweat and so all gloves offer long-term suppleness & tactility. It also ensures an excellent, dry grip whilst flying.
- **Water-resistant** - high level of water-repellence protects the pilot in the event of a forced water landing. This property also enhances insulation & so provides extra warmth during normal use. If the glove becomes wet, natural drying will ensure that the leather remains supple.
- **Breathable** - for additional comfort.
- **Strong** - For maximum durability.
- **Colour-fast.**
